Dr. Gienger:

I am accepting the changes you made to your paper. I have made a thorough edit of your paper that requires additional changes to wording, format, and style, but not to the science of your paper. Please make all the changes I have requested unless I changed the meaning of a sentence. Send back to me a clean copy of this last revision. Also, send separate .png or .jpg images of all figures and photographs, including photos of authors. Send high resolution (at least 1 Mb but not larger than 2 Mb) images of photographs and as large a file as possible of graphs. You do not need to replace the images in the manuscript as these are place holders for the high-resolution images. If you have any questions, e-mail me.

David

Report Suspicious

Dear Dr. Germano,

Would it be possible to get a 30 day extension on returning the revised manuscript HCB-2026-018? It was due Aug 21, 2026.
The beginning of the semester has started and I will need a bit more time to get the revisions completed.

Thank you.
